Slicer muestra los elementos de la escena de slicer4minute. La escena contiene una resonancia magnética y modelos de superficie 3D del cerebro.

*A Slicer scene is a MRML (Medical Reality Modeling Language) file that contains a list of elements loaded into Slicer (volumes, models, fiducials, transforms, etc.)

*In the following example, we use a scene 'Slicer4minute.mrml' composed of an MRI scan and 3D models of the head.

*The scene file and datasets have been saved as a MRB (Medical Reality Bundle) file.

*The MRB file format is Slicer's archive file format.
